COMING SOON

A downtrodden and urgent work of art

from the mouth
to the trough
from the gleam
to a silence
to pure grief
and violence.
My inland empire
will still shine

MOUTH OF A CAVE

from the view of freddiefreel0ader

THE ARTIST

What exactly is their deal?

The artist, known as freddie freeloader has one wish; to express completely what he believes to be the current zeitgeist. Through lengthy discourses of nihilism and a sliver of pure, unadultered and, child-like hope; he conveys his music to the ones eager and willing to open their arms- or in this case, ears -and embrace a hug capable of crushing their suspended ribs. The music he states “is in its embryotic state”, brash, immature, whining, repetitive and full of the charisma a wunderkind could bring you.

The artist extends his hand, and in his endless illness, as we traverse through the garden of humanity; wilted, tumultuous, downtrodden and diverse, we adjust our eyes slightly, to meet our saviour, a comforting death, with as little suffering dealt and caused; this life yearns beauty, and only beauty, here, i can feel it.

THE ART

what is the 'Mouth Of The Cave'

The Mouth Of A Cave is a Singer-songwriter, experimental hip hop, Art-pop rap, drone-folk, tribal ambient album.
Recorded between May 31st 2025 to October 6th 2025, the album is a time capsule of the artists mental state and amateurish world-view.

Taking andre 3000s words "from little rooms come great things" to heart, mouth of a cave is an hour long 12-Track musical experience recorded front to back within the bedroom of the artists childhood home. There is no other presence within the entirety of this record.

With words aimed at inciting feelings of revolution, provocative sentences contorting the audiences' perspective, and an approach to genre and production that strives for an idiosyncratic identity, every inch of this record is given careful deliberation and intent, all while yearning for an experimental and grungy edge.

*It is imperative that you approach the album as a whole-hearted experience and stay open minded to truly form a connection intended to thoroughly enjoy the project

THE PROJECT
